ATARI PROGRAM LIBRARY

The nature of library listings is to become out of date the moment they are printed. As you receive this, there are new disks being cataloged and added to the C.H.A.O.S. library, including MPP EXPRESS, a COMPUSERVE USERS disk, and more. Keep this list handy, supplements will be released every few months until we again print a new complete listing.

Prepared 7/4/86 by
JOHN BAKER and
SALLY NAGY

This library listing replaces and supercedes any previous C.H.A.O.S. disk file library listings. Please discard any old listings as they are no longer applicable.

The library is still divided into 4 sections, but those sections are now divided into subsections for easier use.

The sections//subsections are:
